LEGAL BASIS FOR THE QUARTERLY ECONOMIC AND BUDGETARY REVIEW REPORT

The Quarterly Economic and Budgetary Review Report is Published in accordance with Section 83 of the Public Finance Management Act, 2012. It states as follows:

- **83.** (1) An accounting officer for a national government entity shall prepare a report for each quarter of the financial year in respect of the entity.
- (2) In preparing a quarterly report for a national government entity, the accounting officer shall ensure that the report—
 - (a) Contains information on the financial and non-financial performance of the entity; and
 - (b) Is in a form that complies with the standards prescribed and published by the Accounting Standards Board from time to time.
- (3) Not later than fifteen days after the end of each quarter, the accounting officer shall submit the quarterly report to the Cabinet Secretary responsible for the entity and the National Treasury.
- (4) The Cabinet Secretary responsible for an entity shall forward a copy of the report to the Cabinet Secretary and Controller of Budget.
- (5) Not later than forty five days after the end of each quarter, the National Treasury shall—
 - (a) consolidate the quarterly reports and submit them to the National Assembly and a copy of the reports to the Controller of Budget, Auditor General and the Commission on Revenue Allocation; and
 - (b) Publish and publicize the reports.
- (6) In the case of an entity that is a state corporation, the accounting officer for the corporation shall submit the quarterly report to the Cabinet Secretary responsible for the corporation who shall, upon approving it, forward a copy to the Cabinet Secretary.

HIGHLIGHTS OF THE THIRD QUARTERLY ECONOMIC AND BUDGETARY REVIEW REPORT IN THE 2021/22 FY

1. **Economic** growth

The economy rebounded strongly in 2021 following the reopening of the economy as well as targeted stimulus interventions by the Government. The economy grew by 7.5 percent in 2021 from a contraction of 0.3 percent in 2020. This growth was supported by continued recovery in manufacturing, transport and storage, education, accommodation and food services, financial and insurance activities and wholesale and retail trade. Agricultural production was constrained during the period due to unfavorable weather conditions in most parts of the country.

2. Stable prices

Year-on-year overall inflation rate has remained low, stable and within the policy target range of 5+/-2.5 percent since end 2017. In March 2022, it decreased to 5.6 percent from 5.9 percent in March 2021 mainly due to easing electricity and pump prices following government interventions.

3. Interest Rates

Short-term interest rates remained fairly low and stable. The Central Bank Rate was retained at 7.00 percent as the accommodative monetary policy stance remained appropriate given that inflationary expectations are well anchored within target range and is in line with the ongoing economic recovery. As such, the average lending rate was at 12.2 percent in February 2022 from 12.0 percent in February 2021 while the average deposit rate increased 6.6 percent from 6.5 percent over the same period.

4. Money and Credit

Broad money supply, M3, moderated to a growth of 4.7 percent in the year to March 2022 compared to a growth of 10.1 percent in the year to March 2021. The slowdown was mainly due to a relatively lower Net Foreign Assets (NFA).

5. Current Account

The current account deficit was at USD 5,911.3 million (5.0 percent of GDP) in March 2022 compared to USD 4,713.5 million (4.3 percent of GDP) in March 2021. The current account balance was supported by an improvement in the net receipts on the services account and the net secondary income balance.

6. Foreign Exchange Reserves

The official foreign exchange reserves held by the Central Bank increased to USD 8,432.2 million (4.9 months of import cover) in March 2022 compared to USD 7,741.2 million (4.7 months of import cover) in March 2021. This fulfils the requirement to maintain reserves at minimum of 4.0 months of imports cover to provide adequate buffer against short term shocks in the foreign exchange market.

7. Capital Markets

Activity in the capital markets remained fairly stable in March 2022. The NSE 20 Share Index stood at 1,847 points by end of March 2022 compared to 1,846 points by end March 2021. Market capitalization was at KSh 2,426 billion from KSh 2,437 billion over the same period.

8. Revenue Collection

The National Government's cumulative revenue collection including A-I-A for the period between July 2021-March 2022 amounted to KSh. 1,520.9 billion (12 percent of GDP) against a target of KSh. 1,506.6 billion. The revenue was above target by KSh. 14.3 billion mainly due to over performance in ordinary revenue.

9. Expenditure and Net Lending

The total expenditure and net lending inclusive of transfers to County Governments for the period ending 31st March, 2022 amounted to KSh. 2,069.1billion, against a target of KSh. 2,089.8 billion. The resultant under expenditure of KSh. 20.7 billion is mainly attributed to lower absorption recorded in development expenditures by the National Government and lower than targeted transfers to County Governments.

10. Guaranteed Debt

The government did not service any guaranteed debt on behalf of Parastatals during the period under review.

11. Fiscal Balance

The fiscal balance excluding grants (on a commitment basis) amounted to a deficit of KSh. 548.2 billion (4.3 percent of GDP), as at the end of March, 2022.

12. External Financing

The Net Foreign repayment amounted to KSh. 19.4 billion (1.5 percent of the GDP) during the period ending 31st March, 2022.

13. Net Domestic Borrowing

Net domestic financing amounted to a net borrowing of KSh. 472.5 billion (3.7 percent of GDP) in the period ending 31st March, 2022.

14. Domestic Debt Stock

The stock of gross domestic debt increased by KSh. 622.5 billion from KSh. 3,569.8 billion in March 2021 to KSh. 4,192.4 billion in March, 2022

15. External Debt Stock

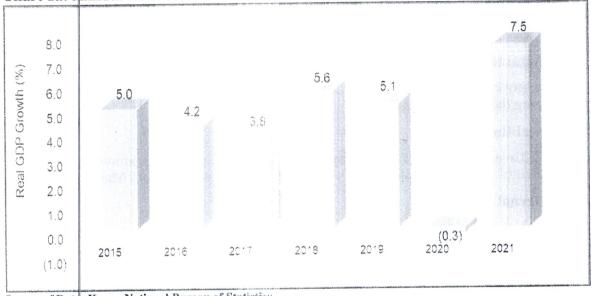

The total external debt stock, including the International Sovereign Bond, stood at KSh. 4,209.6 billion by the end of March, 2022. The debt stock comprised of multilateral debt (43.2 percent), commercial debt (28.7 percent), bilateral debt (27.8 percent) and suppliers' credit (0.3 percent).

1.0 RECENT ECONOMIC DEVELOPMENTS

1.1 Economic Growth

1. The economy recovered strongly in 2021, as economic activities picked up following the easing of COVID-19 restrictions and the reopening of the economy as well as implementation of targeted economic stimulus interventions by the Government. As a result, the economy strengthened to grow by 7.5 percent from a contraction of 0.3 percent in 2020 (Chart 1a). All economic activities registered positive growths except Agriculture, Forestry and Fishing which contracted by 0.2 percent.

Source of Data: Kenya National Bureau of Statistics

- 2. Activities in agriculture, forestry and fishing sector recorded a slowdown in the 2021 mainly on account of less than expected rainfall during the period. The sector is estimated to have contracted by 0.2 percent in 2021 compared to a growth of 4.6 percent in 2020 (Table 1). This was evident in the decline in production of key food crops such as maize, beans and wheat. Production of cash crops such as tea and coffee also declined during the period. The sector's performance was somewhat supported from a steeper contraction by increased milk production as well as in crease in exports of cut flower. The sector had minimal contribution to GDP growth in 2021 compared to 0.9 percentage points contribution in 2020 (Chart 1b).
- 3. The performance of the industry sector improved to a growth of 6.5 percent in 2021 compared to a growth of 3.2 percent in 2020. This was mainly on account of improved performance of the manufacturing and electricity and water supply sub-sectors despite a slowdown in the construction sector. The industry sector accounted for 1.1 percentage points of growth in 2021 compared to 0.5 percentage point contribution to GDP in 2020.
- 4. Activities in the manufacturing sub-sector were more vibrant in 2021 compared to 2020. The sub-sector grew by 6.9 percent in 2021 compared to a 0.4 percent contraction in mproved performance was supported by both the food and non-food components. Electricity and water supply sector recorded a strong growth of 5.0 percent in 2021 compared to a marginal growth of 0.6 percent in 2020. The increase in electricity generation was notable from all sources except hydro.

5. Performance of the construction sub-sector was relatively slower in 2021 compared to 2020. The sub-sector expanded by 6.6 percent in 2021 compared to a growth of 10.1 percent in 2020. The growth was mainly supported by continuous public investment in road infrastructure. The slowdown in growth in the sector was attributed to a decline in the quantity of imported iron and steel, non-ferrous metals, and cement clinkers.

Source of Data: Kenya National Bureau of Statistics

6. The activities in the **services sector** improved significantly due to the 2020 base effect. This sector was the most hit by the COVID-19 pandemic in 2020. The sector grew by 9.6 percent 2021 compared to a contraction of 1.8 percent in 2020 (**Table 1**). The strong growth was largely characterized by substantial improvement in accommodation and food services (52.5 percent), and education services (21.4 percent) that had been severely affected by the pandemic. The sector was also supported by strong growths in wholesale and retail trade (7.9 percent), real estate (6.7 percent), transportation and storage (7.2 percent), and financial and insurance activities (12.5 percent). The services sector contributed 5.4 percentage point to real GDP growth in 2021 compared to the -1.0 percentage point contribution in 2020.

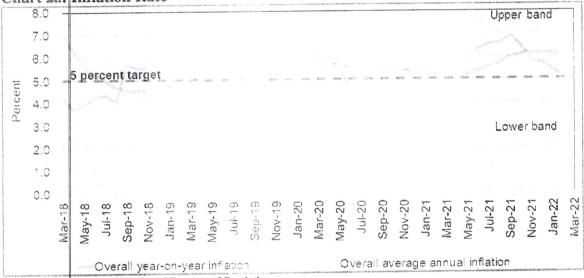

Source of Data: Kenya National Bureau of Statistics

1.2 Inflation

7. Year-on-year overall inflation rate has remained low, stable and within the policy target range of 5+/-2.5 percent since end 2017. The year-on-year inflation rate decreased to 5.6 percent in March 2022 from 5.9 percent in March 2021 mainly due to easing of electricity and pump prices following government interventions. Similarly, overall annual average inflation also remained within Government target range at 6.0 percent in March 2022 compared to the 5.2 percent recorded in March 2021 (Chart 2a).

Source of Data: Kenya National Bureau of Statistics

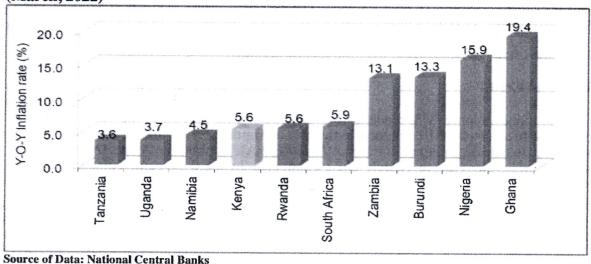

8. Food inflation remain the main driver of overall year-on-year inflation in March 2022, contributing 3.7 percentage points, an increase, compared to a contribution of 2.7 percentage points in March 2021 (Chart 2b). The increase was mainly attributed to dry weather conditions and supply constraints that resulted in a rise in prices of key food items particularly cooking oil (salad) kale (Sukuma wiki), spinach, wheat flour (white), Irish potatoes, carrots, tomatoes, oranges and eggs.

- 9. Fuel inflation eased to contribute 1.1 percentage points to year-on-year overall inflation in March 2022 from a contribution of 2.3 percentage points in March 2021. This was mainly due to the effect of Government measures to stabilize fuel prices and lower electricity tariffs. However, there was notable increase in the prices of petrol and diesel in March 2022 compared to March 2021.
- 10. The contribution of core inflation to year-on-year overall inflation has been low and stable, consistent with the muted demand pressures in the economy on account of prudent monetary policies. The contribution of core inflation to overall inflation remained stable at 0.8 percentage points in March 2022 same as in March 2021.

Chart 2b: Contribution to Overall Year-on-Year Inflation 6.9 6.5 6.6 5.8) (5.7 7.0 6.3 6.6 5.4 5.9 5.9 5.8 5.1 5.6 1.0 0.9 1.0 6.0 0.9 0.9 0.7 Contribution (% points) 0.8 0.8 0.8 0.8 0.7 5.0 1.5 1.8 1.6 1.9 2.0 1.7 1.1 2.0 4.0 2.3 1.4 2.2 1.1 3.0 2.0 3.9 3.9 3.8 3.5 3.5 3.7 3.3 3.2 3.2 3.2 2.8 2.7 2.6 1.0 0.0 Mar-22 Mar-21 Apr-21 May-21 Jun-21 Sep-21 Jan-22 Feb-22 Jul-21 Aug-21 Oct-21 Nov-21 Dec-21 ■ Food # Fuel Core Overall

11. Kenya's year-on-year overall inflation rate compares favorably with the rest of Sub-Saharan Africa countries. In March 2022, Kenya recorded a lower inflation rate than South Africa, Burundi, Ghana, Nigeria and Zambia (Chart 2c).

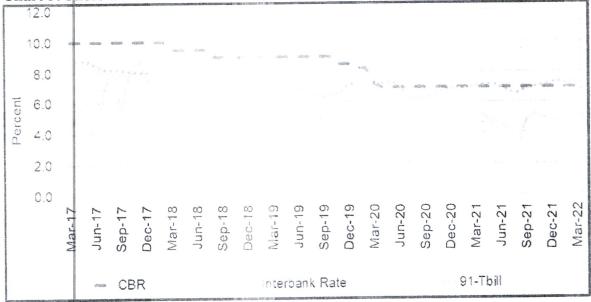

Source of Data: National Central Banks

Source of Data: Kenya National Bureau of Statistics

1.3 Interest Rates

- 12. The Central Bank Rate was retained at 7.00 percent as the accommodative monetary policy stance remained appropriate given that inflationary expectations are well anchored within the target range and is in line with the ongoing economic recovery. Short-term interest rates remained fairly low and stable supported by ample liquidity in the money market partly reflecting Government payments. As such, the interbank rate declined to 4.7 percent in March 2022 from 5.2 percent in March 2021 (Chart 3).
- 13. Interest rates on the Treasury bills remained relatively stable in March 2022. The 91-day Treasury Bills rate was at 7.3 percent in March 2022 compared to 7.0 percent in March 2021. Over the same period, the 182-day Treasury Bills rate increased to 8.1 percent from 7.8 percent while the 364-day also increased to 9.8 percent from 9.1 percent.

Source of Data: Central Bank of Kenya

14. Commercial banks' lending rates remained relatively stable in February 2022 supported by the accommodative monetary policy stance. The average lending rate was at 12.2 percent in February 2022 from 12.0 percent in February 2021 while the average deposit rate increased 6.6 percent from 6.5 percent over the same period. Consequently, the average interest rate spread remained stable at 5.6 percent over the review period.

1.4 Money and Credit

Broad money supply, M3, moderated to a growth of 4.7 percent in the year to March 2022 compared to a growth of 10.1 percent in the year to March 2021 (**Table 2**). The slowdown was mainly due to a decline in the Net Foreign Assets (NFA). Net Foreign Assets (NFA) of the banking system in the year to March 2022 contracted by 38.0 percent, compared to a contraction of 10.0 percent in the year to March 2021. The decline in NFA was partly due to the Central Bank payments of Government external obligations and increased commercial banks' loans from nonresidents.

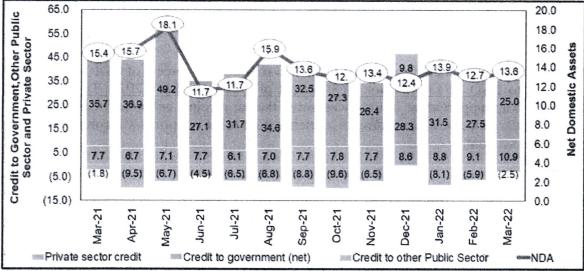

Table 2: Money and Credit Developments (12 Months to March 2022 Ksh. Billion)

Source of Data: Central Bank of Kenya

16. Net Domestic Assets (NDA) registered a growth of 13.6 percent in the year to March 2022, a slowdown compared to a growth of 15.4 percent over a similar period in 2021 (**Table 2, Chart 4**). The growth in NDA was supported by net lending to Government, and resilient growth in credit to the private sector as business activities improved. The slowdown in its growth was due to a contraction of credit to other public sector mainly due to a decline in borrowings by County Governments and parastatals.

Chart 4: Growth in NDA and its Sources (Percent)

-

Source of Data: Central Bank of Kenya

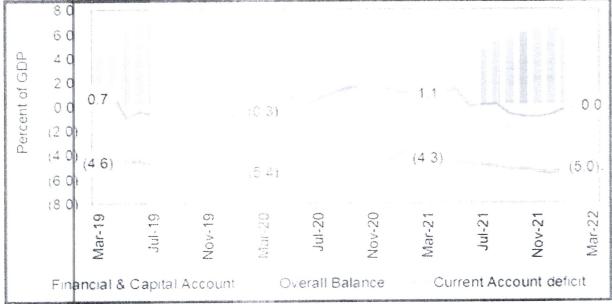

17. Private sector credit improved to a growth of 10.9 percent in the 12 months to March 2022 compared to a growth of 7.7 percent in the year to March 2021. This was supported by

recovery in economic activities, the accommodative monetary policy and other policy measures by government to mitigate the adverse impact of COVID-19 on the economy. Strong credit growth was observed in the following sectors: transport and communication, manufacturing, trade, consumer durables and business services. All economic sectors, except mining and quarrying, registered positive credit growth rates. The Credit Guarantee Scheme for the vulnerable Micro, Small and Medium Enterprises (MSMEs), continues to de-risk lending by commercial banks hence remains critical to increasing credit flow to the private sector.

1.5 Balance of Payments

18. The overall balance of payments position declined to a surplus of USD 34.1 million (0.03 percent of GDP) in March 2022 from a surplus of USD 1,196.1 million (1.1 percent of GDP) in March 2021 (Chart 5). This was mainly due to a decline in the merchandise account reflecting increased imports of oil and other intermediate goods.

Source of Data: Central Bank of Kenya

- 19. The current account deficit was at USD 5,911.3 million (5.0 percent of GDP) in March 2022 compared to USD 4,713.5 million (4.3 percent of GDP) in March 2021. The current account balance was supported by an improvement in the net receipts on the services account and the net secondary income balance despite a deterioration in the net primary income balance and merchandise account.
- 20. The balance in the merchandise account declined by USD 2,895.1 million to a deficit of USD 11 717.6 million in March 2022 mainly due to increased payments on imports in spite of an improvement in the export earnings (**Table 3**). In the year to March 2022, exports grew by 12.9 percent primarily driven by increased receipts from exports of horticulture and manufactured goods. On the other hand, imports of goods increased by 24.7 percent in the year to March 2022 mainly due to increases in imports of oil and other intermediate goods.

Source of Data: Central Bank of Kenya

- 21. Net receipts on the services account improved by USD 982.1 million to USD 1,249.6 million in March 2022 compared to a similar period in 2021. This was mainly on account of an increase in receipts from transport and tourism as international travel continued to improve. Net Secondary income remained resilient and increased by USD 1,221.3 million during the review period supported by remittances. The balance of the primary account widened by USD 506.0 million to a deficit of USD 1,796.2 million in March 2022, from a deficit of USD 1,290.2 million in the same period last year, attributed to increased payments on portfolio investments.
- 22. The capital account balance improved by USD 14.7 million and registered a surplus of USD 194.1 million in March 2022 compared to the same period in 2021. Net financial inflows also improved to USD 6,948.8 million in March 2022 compared to USD 3,515.9 million in March 2021. The net financial inflows were mainly in the form of other investments, portfolio investments, financial derivatives and direct investments.

1.6 Foreign Exchange Reserves

23. The banking system's foreign exchange holdings remained strong at USD 12,590.0 million in March 2022 from USD 12,850.2 million in March 2021. The official foreign exchange reserves held by the Central Bank increased to USD 8,432.2 million (4.9 months of import cover) in March 2022 compared to USD 7,741.2 million (4.7 months of import cover) in March 2021 (Chart 6).

Chart 6: Foreign Exchange Reserves by March 2022

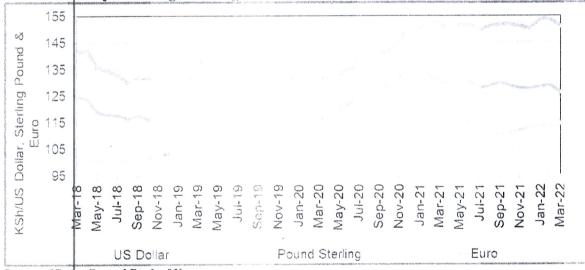

Source of Data: Central Bank of Kenya

24. The official reserves fulfil the requirement to maintain reserves at minimum of 4.0 months of imports cover to provide adequate buffer against short term shocks in the foreign exchange market. Commercial banks holdings decreased to USD 4,157.8 million in March 2022 from USD 5,109.0 million in March 2021.

1.7 Exchange Rates

25. The foreign exchange market has largely remained stable despite the tight global financial conditions attributed to strengthening US Dollar. The Kenya Shilling to the US Dollar exchanged at Ksh. 114.3 in March 2022 compared to Ksh. 109.7 in March 2021. Over the same period, the Euro exchanged at Ksh. 126.2 compared to Ksh. 130.9 while the Sterling Pound exchanged at Ksh. 151.0 compared to Ksh. 152.2 (Chart 7a).

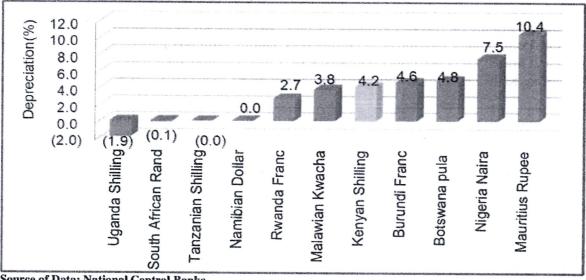

Chart 7a: Kenya Shilling Exchange Rate

Source of Data: Central Bank of Kenya

26. In comparison to most Sub-Saharan Africa currencies, the Kenya Shilling has remained relatively stable weakening by 4.2 percent against the US Dollar (Chart 7b). This depreciation of the Kenya Shilling was lower than that of Burundi Franc, Nigerian Naira, Mauritius Rupee and Botswana Pula. The stability in the Kenya Shilling was supported by increased remittances, adequate foreign exchange reserves and favorable horticultural exports.

Chart 7b: Performance of Selected Sub-Saharan Countries Currencies against the US Dollar (March, 2021 to March, 2022)

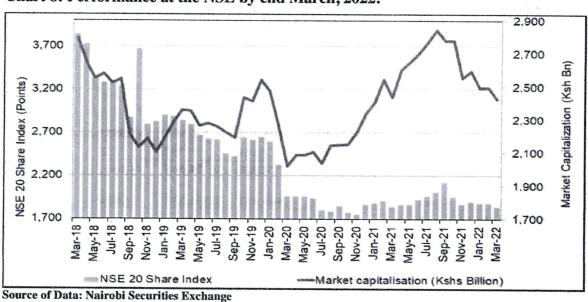

Source of Data: National Central Banks

1.8 Capital Markets

27. Activity in the capital markets remained fairly stable in March 2022. The NSE 20 Share Index stood at 1,847 points by end of March 2022 compared to 1,846 points by end March 2021. Market capitalization was at KSh 2,426 billion from KSh 2,437 billion over the same period (Chart 8).

Chart 8: Performance at the NSE by end March, 2022.

2.0 FISCAL DEVELOPMENTS

2.0 Revenue

- 28. By the end of March 2022, total revenue collected including A-I-A amounted to KSh. 1,520.9 billion against a target of KSh. 1,506.7 billion (**Table 4**). The revenue was above target by KSh. 14.3 billion mainly due to above target performance of ordinary revenue. The total revenue inclusive of the ministerial A-I-A grew by 22.1 percent, an improvement from a contraction of 6.5 percent recorded in March 2021. The growth is largely attributed to the improved operating business environment due to easing of Covid-19 pandemic containment measures and targeted economic stimulus interventions by the Government. Ordinary revenue collection was KSh. 1,327.5 billion against a target of KSh. 1,305.9 billion, KSh. 21.7 billion above the target (**Chart 9**).
- 29. The ministerial A-I-A collected was below target by KSh. 7.4 billion during the period under review. The underperformance of A-I-A was mainly due to underreporting of SAGAs' A.I.A through the Ministerial expenditure returns for the period under review. The Railway Development Levy collection amounted to KSh. 25.9 billion against a target of KSh. 25.2 billion. The revenue data in Government Finance Statistics Manual 2014 (GFSM 2014) format is shown in annex II.

2.1 Expenditure

31. The total expenditure and net lending for the period under review amounted to KSh. 2,069.1 billion, against a target of KSh.2,089.8 billion. The resultant under expenditure of KSh. 20.7 billion is attributed to lower absorption recorded in development expenditures by the National Government and below target transfers to County Governments. Recurrent expenditure for National Government amounted to KSh. 1,455.0 billion (excluding KSh. 35.0 billion for Parliament and Judiciary), against a target of KSh. 1,438.3 billion leading to an above target expenditure of KSh. 16.7 billion. The over expenditure in recurrent category is mainly attributed to above target expenditure on Operation and Maintenance (O&M) and pension payments (Table 5 and Chart 10).

32. Foreign interest payments amounted to KSh. 92.5 billion, higher than the KSh. 80.2 billion paid over the same period in the FY2020/21. The domestic interest payments totalled to KSh. 332.2 billion, which was higher than the KSh. 286.1 billion paid in the corresponding period in the previous financial year. The expenditure data in GFSM 2014 format is shown in annexes III and IV.

Chart 10: Expenditure and Net Lending for the Period Ending 31st March, 2021

Source of Data: National Treasury

2.1.1 National Government Expenditures by Public Agencies

- 33. The total ministerial and other public agencies expenditure including A.I.A was KSh. 1,312.6 billion against a target of KSh. 1,561.3 billion. Recurrent expenditure was KSh. 960.8 billion against a target of KSh. 1,049.1 billion, while development expenditure amounted to KSh. 351.8 billion against a target of KSh. 512.2 billion. The percentage of total expenditures to the target was 84.1 percent while the percentage of total expenditures to the target for recurrent and development were 91.6 percent and 68.7 percent respectively, as at the end of the period under review. The discrepancy between actual and target expenditures was partly due to the non-capture of the parastatals and some other government entities expenditures. These ministerial expenditures are therefore, provisional.
- 34. As at the period ending 31st March, 2022, recurrent expenditures by the State Department for Early Learning and Basic Education, State Department for University Education; Teachers Service Commission; State Department for Vocational and Technical Training and the Ministry of Health (Social Sector) accounted for 40.5 percent of total recurrent expenditure. In addition, the State Department for Interior and the Ministry of Defence each accounted for 10.1 percent of total recurrent expenditure respectively.
- 35. Analysis of development outlay indicates that the State Department for infrastructure accounted for the largest share of the total development expenditure (23.4 percent), followed by the State Department for Planning (13.4 percent), Ministry of water, Sanitation and irrigation (12.2 percent) and the National Treasury (11.8 percent). The expenditures by large Ministries/State Departments were below target because of under reporting of expenditure from the sub-national, parastatals and some donor funded projects. **Table 6** shows the recurrent and development expenditures by Ministries, State Departments and other government entities for the period under review.

Source of Data: National Treasury

36. During the period under review, the National Security Sector recorded the highest absorption of 100.5 percent of its budget, followed by Education at 91.8 percent. Agriculture, Rural and Urban Development (ARUD) recorded the lowest absorption of 56.7 percent (Chart 11).

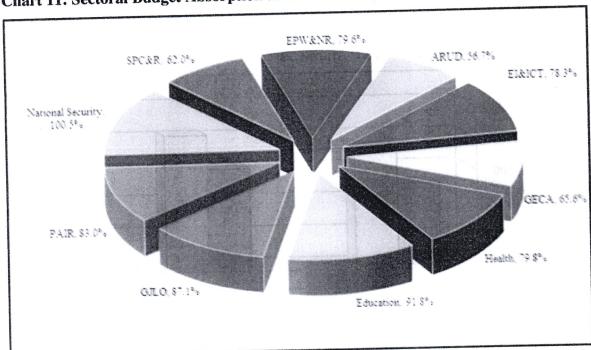

Chart 11: Sectoral Budget Absorption as at 31- March, 2022

Source of Data: National Treasury

2.1.2 Pending Bills

- 37. The total outstanding national government pending bills as at 31st March, 2022 amounted to KSh. 434.5 billion. These comprise of KSh. 385.6 billion (88.7 percent) and KSh. 48.9 billion (11.3 percent) for the State Corporations (SCs) and Ministries/State Departments/other government entities respectively. The SCs pending bills include payment to contractors/projects, suppliers, unremitted statutory and other deductions, pension arrears for Local Authorities Pension Trust, and others. The highest percentage of the SCs pending bills (59.1 percent) belong to Contractor/Projects and Suppliers. Ministries/State Departments and other government entities pending bills constitutes mainly of historical pending bills as at the end of the 2019/20 Financial Year.
- 38. The national Government policy on clearance of pending bills continues to be in force. All MDAs are therefore, expected to continue with prioritization of payment of the pending bills by settling them as a first charge in the FY 2021/22 budget in line with the Treasury Circular No. 7/2019.

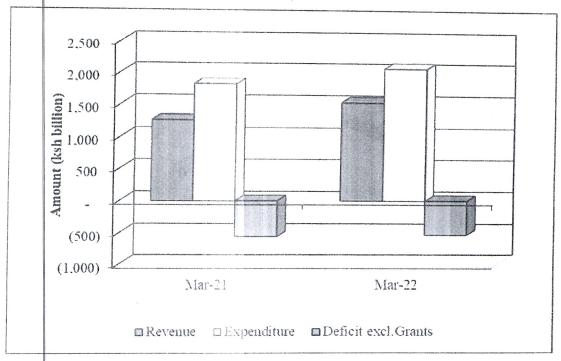

2.1.3 Guaranteed Debt Service

39. The government did not service any guaranteed debt during the period under review since cumulative principal and interest payments of guaranteed loans to parastatals with liquidity problems were fully paid.

2.2 Fiscal Outturn

Between 1st July, 2021 and 31st March, 2022, the fiscal balance (on commitment basis and excluding grants) amounted to KSh. 548.2 billion (4.3 percent of GDP) against a target ed deficit of KSh. 583.1 billion (4.6 percent of GDP) (Chart 12 and Table 8). The fiscal balance (on a commitment basis and including grants) stood at 4.2 percent of GDP against a target deficit of 4.4 percent of GDP.

Chart 12: Fiscal Balance as at 31 March, 2022

Source of Data: National Treasury

41. Over the same period in FY2020/21, the fiscal deficit including grants (on commitment basis) stood at KSh. 557.0 billion (4.9 percent of GDP). The fiscal outturn in the last six FYs, the original budget, and Supplementary I for the FY 2021/22 are shown in Annex I. Further, GFSM 2014 Compliant Budgetary Central Government fiscal data for the FY 2020/21 are shown in annexes V and VI.

2.3 Financing

2.3.1 External Financing

42. During the period under review, net external repayments amounted to KSh. 19.4 billion (**Table 9**). Total disbursements (inflows) including Appropriations-in-Aid amounted to KSh. 125.4 billion for the period ending 31st March, 2022 against a target of KSh. 145 billion. The total disbursement included KSh. 60.3 billion Project Loans A.I.A, KSh. 42.2 billion program loans and KSh. 22.8 billion Project Loans-Cash. The External repayments (outflows) of principal debt amounted to KSh. 144.7 billion. The amount comprised of principal repayments due to bilateral sources, commercial institutions and multilateral sources amounting to, KSh. 64.6 billion, KSh. 55.9 billion and KSh. 24.2 billion respectively.

2.3.2 Domestic Financing

43. By the end of March 2022, net domestic borrowing amounted to KSh. 472.5 billion (Table 10) against a target borrowing of KSh. 560.3 billion (Table 8). The borrowing comprised of KSh. 320.5 billion from Non-Banking Financial Institutions, KSh.176.0 billion from commercial banks, Ksh. 102.3 billion from the Central Bank and KSh. 14 million (net repayment) to Non-Residents while the Government drawdown from deposits at the CBK amounted to KSh. 126.2 billion. Comparatively, for the same period in FY 2020/21, the domestic borrowing amounted to KSh. 466.5 billion, comprising of KSh. 171.0 billion from Commercial Banks, Ksh. 255.6 billion from Non-Banking Financial Institutions, KSh. 38.8 billion from the Central Bank of Kenya, and KSh. 0.9 billion from Non-Residents while the Government deposit to CBK amounted to KSh. 0.2 billion from other domestic sources (Table 10 and Chart 13).

Source of Data: Central Bank of Kenya

44. The stock of Treasury Bills held by commercial banks and Non-Residents recorded a net decrease of KSh. 22.2 billion and KSh. 0.7 billion respectively while those held by Non-Banks increased by KSh. 32.3 billion. The stock of Fixed Rate Bonds held by Commercial Banks and Non-Banks, and recorded a net increase of KSh. 21.6 billion and KSh. 1.4 billion respectively while those held by Non-Residents decreased by KSh. 1.7 billion (**Table 10**).

3.0 PUBLIC DEBT

3.1 Overall Debt Position

45. The gross public debt as at 31st March, 2022 increased by KSh. 1,062.2 billion to KSh. 8,401.9 billion compared to KSh. 7,339.7 billion as at end of March 2021. The gross public debt comprised of 50.1 percent external debt and 49.9 percent domestic debt. The increase in the public debt is attributed to external loan disbursements; exchange rate fluctuation; and the uptake of domestic debt during the period. The net public debt was KSh. 7,952.8 billion by end of the period under review (**Table 11**).

3.3 External Public Debt

In dollar terms, external public debt stock increased by US\$. 2,196.1 million from US\$. 34,424.3 million by end of March 2021 to US\$. 36,620.4 million by the end of March, 2022 (**Table 13**). This comprised debt owed to multilateral (43.1%), bilateral (27.8%), commercial banks (28.7%), and Suppliers Credit (0.3%). This increase is attributed to disbursements and exchange rate fluctuations during the period.
