## **KENYA NATIONAL AUDIT OFFICE**

### **REPORT OF THE CONTROLLER AND AUDITOR GENERAL ON THE FINANCIAL STATEMENTS OF THE ENERGY REGULATORY COMMISSION FOR THE YEAR ENDED 30 JUNE 2009**

I have audited the financial statements of Energy Regulatory Commission for the year ended 30 June 2009 set out at pages 10 to 20 which comprise the statement of financial position as at 30 June 2009, the statement of financial performance, statement of changes in equity, and the cash flow statement for the year then ended, together with a summary of significant accounting policies and other explanatory notes in accordance with the provisions of Section 14 of the Public Audit Act, 2003. I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purpose of the audit.

#### **Commissioners' Responsibility for the Financial Statements**

The Commissioners are responsible for the preparation of financial statements which give a true and fair view of the Commission's state of affairs and its operating results in accordance with the International Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances.

#### **Responsibility of the Controller and Auditor General**

My responsibility is to express an independent opinion on the financial statements based on the audit. The audit was conducted in accordance with the International Standards on Auditing. Those standards require compliance with ethical requirements and that the audit be planned and performed with a view to obtaining reasonable assurance that the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls

relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the board members, as well as evaluating the overall presentation of the financial statements. I believe the audit provides a reasonable basis for my opinion.

### **Opinion**

In my opinion, proper books of account have been kept and the accompanying financial statements give a true and fair view of the financial position of the Commission as at 30 June 2009 and of its surplus and cash flows for the year then ended in accordance with the International Financial Reporting Standards and the Energy Act, 2006.

# NOTES TO THE ACCOUNTS

## 1. Significant Accounting Policies

### a) Basis of Accounting

The Depreciation rates used are as follows;

- Motor vehicles 25%
- Furniture & Fittings 12.5%
- Computer Equipments 30%
- Equipments 12.5%
