RE:FIFTY (50) METRES RADIUS FOR PLANTING CANE AWAY
FROM DISTRICT HEADQUARTERS.

The District Security and Intelligence Committee held on Thursday 14th July, 2011 at the District Commissioner's Office of which you were absent with apologies, to deliberate on the above mentioned issues.

Due to security operations orders and strategic safeguards to security installations, the committee decided that cane growing on government land can only be done not less than fifty (50) metres from the present District Headquarters. This will safeguard the District Armoury, Treasury, AP Lines and classified government documents and hardware.

Please get in touch with the undersigned to organize for a date to plant trees along the cutline in the spirit of good neighborliness and environmental protection.

Thanks in anticipation.
