PRINTING AND STATIONERY

ANNUAL REPORT

1929-30

**PRINTING AND STATIONERY DEPARTMENT**  
**ANNUAL REPORT, 1st JULY, 1959—30th JUNE, 1960**

**ADMINISTRATIVE AND GENERAL**

**Printing Activity**

The Press worked to full capacity during the year under review, July, 1959, to June, 1960, and the results obtained were of such a standard that all concerned may take pride in their achievement. In brief, the picture which emerges from the statistics involved is one of increased printing activity and greater revenue, at the smallest overall cost to Government for several years.

The production of the Corfield report, *The Origins and Growth of Mau Mau* (328 pp., with 2-colour map insert) constituted quite a challenge to an already hard-pressed department in having to produce, within eight days of receiving final proofs, 7,000 copies under security arrangements. Three thousand five hundred copies of these had to be despatched to the Colonial Office in time for simultaneous publication in the United Kingdom and Kenya on the 1st June, 1960. By the afternoon of the 2nd June all copies in Kenya were sold out, and a reprint which was put in hand immediately was completed within six days. This second impression was sold out within two weeks, and a third impression which was put in hand on the 24th June was completed by the 2nd July.

**Revenue**

The revenue earned by the department was some £135,000, which was an increase of £4,000 over the previous year. This revenue is principally derived from printing for the East Africa High Commission Services, sales of publications, Gazette advertisements and subscriptions, and stationery supplied on charge.

The total cost value of all printing, including printing for the Kenya Government, was £206,537, which was £7,363 more than in 1958/59.

**Staff Training**

For several years now it has been difficult to recruit skilled printing staff from either local sources or overseas. Because of this, in the recent filling of a vacancy by overseas recruitment, due regard was given to the

candidate's capacity to train others as well as to his technical ability, and the beneficial results of planned training are beginning to be observed.

Whilst it is not possible, as yet, to second any staff to full-time tutorial duty, man and machine hours being more than committed as overtime figures indicate, it is felt that a good start has been made in tackling and increasing the training of local staff. Trainees have generally shown interest and appreciation.

### Paper Consumption

The tonnage of paper used during the year rose slightly, a total of 520 tons passing through the Press and emerging as forms, reports, legislation, Gazettes and wrappings, etc.

### COUNTERFOIL RECEIPT BOOK SECTION

This section continued to handle all revenue receipt books and the following are the comparative issues:

### REVENUE AND EXPENDITURE

Expenditure for the financial year 1959/60 was some £46,225 less than in 1958/59. The factors contributing to this reduction were the continuation of strict control over departmental demands for stationery

and printing, and the nonfulfilment of a number of indents for paper, etc., on the Crown Agents. There was also a fall in the repair charges for typewriters, and expenditure on paper and machinery required for the revised edition of the Kenya Laws in 1958/59 was not repeated.

Departmental accounting records reveal the following expenditure and revenue details covering two financial periods:

EXPENDITURE	Actual Expenditure 1958/59		Actual Expenditure 1959/60

### KENYA GAZETTE

The total number of paid subscribers to the Kenya Gazette as at 30th June, 1960, was 1,570; official free recipients numbered 1,650.

The number of pages in the Gazette issues for 1959 showed an appreciable increase, as the following table indicates:

### Number of Pages

		Gazette	Ordinances	Supplements
1957	..	1,370	195	788
1958	..	1,515	555	908
1959	..	1,503	814	1,097

The total number of paying subscribers to the East Africa High Commission Gazette averages 376, whilst free issues number 1,426.

## PRINTING AND OTHER ITEMS SUPPLIED

Detailed information of printing supplied to all departments has been omitted in the interests of economy, but the following main groups are shown, together with details of 1958/59 for comparison:

	1958/59	1959/60
Forms, cards, etc. . . . .	86,247,260	89,765,213
Paper back books . . . . .	492,851	413,632
Circulars and pamphlets . . . . .	224,264	378,157
Circulars and pamphlets: Information Office . . . . .	206,500	106,500
Ledgers and Binding . . . . .	8,966	9,560
Railway tickets . . . . .	3,898,959	2,312,459
Rubber Stamps . . . . .	5,802	5,519

## STATIONERY

The following figures indicate a continuance of strict economy:

FINANCIAL YEAR	Total Block Allocation	Total Value of Issue
	£	£ s. cts.
1957/58 . . . . .	51,370	53,686 6 12
1958/59 . . . . .	50,480	51,477 12 37
1959/60 . . . . .	51,525	51,194 7 47

The number of indents dealt with in 1959/60, i.e. 8,980, compares with 11,217 executed in 1958/59. The decrease is due to Police Headquarters being supplied in bulk for issue to stations outside.

In addition to parcels collected locally from the stationery stores, 14,226 parcels, including 396 cases, weighing 271,115 lb., were despatched from this office. The total for the previous year was 7,912 parcels, including 367 cases, weighing 269,312 lb.

The following selected list of items supplied in 1959/60 in comparison with 1958/59 is of interest:

	1958/59	1959/60
Paper, typing, reams of 500 sheets ..	29,728	23,963
Paper, duplicating, reams of 500 sheets ..	19,621	19,246
Books 13" x 8" and 10" x 8" .. ..	10,615	8,921
Wax stencils for duplicating sheets ..	120,192	138,168
Pencils (various) .. .. .	119,571	116,371
Penholders .. .. .	1,963	2,179
Manila files (stock issues) .. ..	151,063	172,600
Carbon paper (typewriting sheets) ..	874,076	818,272
Typewriter ribbons .. .. .	8,971	8,312
Ink duplicating tubes .. .. .	2,898	3,105
Filwax bottles (correcting fluid) .. ..	1,566	1,640
Biro pens .. .. .	2,610	3,135
Refills for Biro pens .. .. .	12,019	9,047

### MACHINERY MAINTENANCE

The Press Engineer was kept very busy throughout the year. His staff has been increased by the acquisition of an electrician, resulting in a reduction of machine-hours lost and of time spent on repairs. It was possible to overhaul and recondition some 40 electric motors during the year, and new plant and machinery can be installed or re-sited with the minimum of delay.

#### Machinery Replacement Programme

A recent survey of the printing machinery of this department has revealed the necessity to embark upon a programme of replacement in order that present and future printing commitments may continue to be successfully met. This replacement programme has been commenced, and it is hoped, will be continued annually, in order that many worn and out-moded units of machinery of 20 to 30 years usage and over will be replaced by up-to-date plant.

### TYPEWRITERS AND DUPLICATORS

Although the number of typewriters sent for repair rose by 300 machines to 1,689, the aggregate repair bill was less than the year before. This fortunate state of affairs was due to the system of carefully checking each repair estimate with the history of the machine.

The following table shows the activities of this section :

	1958/59	1959/60
Locally Purchased:		
Typewriters .. .. .	322	260
Duplicators .. .. .	48	37
Taken over from African Courts:		
Typewriters .. .. .	23	—

Handed over to Board of Governors for Government Schools:		
Typewriters .. .. .	—	23
Duplicators .. .. .	—	13

### LITHOGRAPHIC DIVISION

Staff shortages, due to one officer having to retire following an accident, and another accepting a transfer, have considerably hampered production in this section of the Press. Nine geological maps in colour, however, were completed for Report Nos. 45, 46, 47 and Memoir No. 2.

Staff recruitment attempts for the camera and machine room have so far failed, but, as work for the Microfile unit fell away, the officer engaged thereon was able to assist in general negative production.

#### African Progress

Production in the printing-down-to-metal section under the supervision of the Assistant Superintendent is now wholly African, and the standard achieved is a good one.

The Superintendent of the Lithographic Division again stresses the need for the replacement of worn machinery. As stated elsewhere, this subject is being tackled.

The total number of blocks manufactured during the year was 1,848.

The following are details of work handled:

				1958/59	1959/60
Litho Work Orders	..	..	..	979	1,131
Reams machined	..	..	..	20,006	20,257
Multilith Work Orders	..	..	..	796	937
Reams machined	..	..	..	14,577	14,176

The total cost value of work carried out in all sections of this division amounted to £30,573. Of this total Lithographic work accounted for £27,350, whilst process work amounted to £3,223.

### APPRECIATION

It is with pleasure that one records the continued loyalty and diligence of the entire staff of this department, despite the unremitting pressure of work which continually trespasses upon what should be their leisure hours.

26th September, 1960.

H. G. LOFTING,  
*Government Printer.*
